

To Whom It May Concern, I would like the FCC to reject the National Association of Broadcasters petition 04-160.

I am a truck driver like so many other XM Satellites customers and I benefit from learning how the traffic and weather is in the major cities that I travel on a daily basis. Knowing the traffic conditions ahead of time allows me to plan my route around the major conjections.

I also decide whether or not I want to travel in certain areas of the country by listening to the weather forecasts on my XM.

My XM radio has kept me company on so many trips. Please do not let the NAB dictate what I am permitted to hear.

Sincerely
Terry Cash
